The purpose of this template is to explore concrete and novel solutions to your legacy challenge. You will use the legacy challenge question as a springboard for exploring a variety of possible solutions. In the end, you will decide which solution(s) is worth developing further and investing in.

1. Come up with as many concrete ideas as possible (e.g. Let's use the host of the most famous car TV show in Denmark and build a social media campaign).

2. Explore and get inspired by possible direction(s) and/or the concrete change(s) we want to see.

3. When you have a number of ideas it's time to select the ideas you think are worth pursuing going forward.

You can use 'dot- voting' as a way for the group to identify the best ideas:
Each group member gets three votes. Without talking to each other each group member indicates three different favorite ideas, with the dot of a marker. The idea with the most dots is selected to be investigated further. If you arrive at a draw you can do a second vote between the winning ideas.

BUILDING OUR LEGACY SOLUTIONS

LEGACY LAB TOOLKIT

COPENHAGEN CONVENTION BUREAU

BUILDING OUR LEGACY SOLUTIONS

Explore as many alternative solutions to your legacy challenge as possible before you decide which one to develop further

YOUR LEGACY CHALLENGE AS A QUESTION

EXAMPLE:

How might we increase awareness around bullying as a group phenomenon for parents, so they can help build non-bullying groups and communities.

IDEAS

Come up with as many concrete ideas as possible.

DURING THE EVENT

BEFORE THE EVENT

AFTER THE EVENT

POSSIBLE DIRECTION

EXAMPLE:

An educational offering targeting teachers.

THE CONCRETE CHANGES WE WANT TO SEE

EXAMPLE:

FROM: "Parents believing individual children are bullies."

TO: "Parents understand bullying as a group phenomenon."

SELECT THE BEST IDEA(S)
