

PATIENT INVOLVEMENT

Facilitating two-way communication between patients and healthcare professionals to increase knowledge and improve health outcomes.

ESPGHAN 2022

THE EUROPEAN SOCIETY FOR PAEDIATRIC GASTROENTEROLOGY HEPATOLOGY AND NUTRITION

During the congress, a Family Education Day was organised to improve the quality of life for affected children and their families. Families interacted with experts, learned about the latest research in autoimmune diseases (celiac disease, liver diseases, and IBD), while experts could learn directly from patients. Additionally, participants had the chance to network with one another and gain insights into navigating their diseases.

Partners: The Danish Society for Paediatric Gastroenterology, Hepatology and Nutrition (DaSPGHaN), The European Society for Paediatric Gastroenterology Hepatology and Nutrition (ESPGHAN), Copenhagen Legacy Lab, and more.

ECTRIMS 2024

THE EUROPEAN COMMITTEE FOR TREATMENT AND RESEARCH IN MULTIPLE SCLEROSIS

On the last day of the congress, a Patient Community Day for Multiple Sclerosis (MS) patients was held on-site and online. Experts shared the latest MS research, and attendees could ask questions. Key insights were compiled into a report to educate and empower MS patients worldwide to actively manage their health.

Partners: ECTRIMS, Bellagroup, and Copenhagen Legacy Lab.
